**Amarpreet Gupta**

Neurofeedback | EEG | Psychiatry

ET-Expert's Score: 109

### Regular EEG & Neurofeedback

Nero feedback technologies are developing very rapidly. The therapy has proved its effect in a variety of scientific works and in practice. This strategy includes regular trainings with EEG. Simulation of reactions to various events and training aimed at reducing stress through the mechanics of the neural circuit. In the event of an accident, this strategy assumes immediate freezing of the brain or the entire body, depending on the wishes of the client.

**Solution Price ~ 59.5k ETT (~1.2k\$)**

**Tina Krüger**

Gerontology Scientist, PhD in Biochemistry , Therapist, Coach

ET-Expert's Score: 142

### Herbal Cocktail & Physical Exercises

This strategy includes regular meals with organic food with the addition of special varieties of herbs. A set of exercises with progressive physical activity on the body. Regular blood tests for the presence of antioxidants, glucose and cholesterol. Monitoring of heart rate dynamics. In the event of an accident, biomaterials will be instantly collected and processed in accordance with the individual preferences and goals of the client.

**Solution Price ~ 39.5k ETT (~0.8k\$)**
